

Anaesthesia for non-cardiac surgery in congenital heart disease – paediatric anaesthesia

Thursday 29 November 2018

Location: 21 Portland Place, London, W1B 1PY

Organiser: Dr Raju Reddy, Birmingham

- 09:30** **Registration / Tea & coffee**
- 10:00** **Congenital heart disease – history, epidemiology & the BT shunt** Domain 1: Knowledge, skills and performance, 3D00, 3G00
Dr Tim Murphy, Bristol
- 10:45** **Single ventricle palliation – hypoplastic left hearts and tricuspid atresia: the Glenn shunt and Fontan circulation** Domain 1: Knowledge, skills and performance, 3D00, 3G00
Dr Raju Reddy, Birmingham
- 11:30** **Common neonatal surgeries (non-cardiac) in congenital heart disease** Domain 1: Knowledge, skills and performance, 3D00, 3G00
Dr Ritchie Marcus, Birmingham
- 12:15** **Discussion**
- 12:30** **Lunch**
- 13:30** **Non-cardiac surgery in congenital heart disease – a cardiologist’s view** Domain 1: Knowledge, skills and performance, Domain 3: Communication, partnership and teamwork, 3D00, 3G00
Dr Ashish Chikermane, Birmingham
- 14:15** **Non-cardiac surgery in adult congenital heart disease – an anaesthetist’s view** Domain 1: Knowledge, skills and performance, Domain 3: Communication, partnership and teamwork, 3D00, 3G00
Dr Matthew Barnard, London
- 15:00** **Congenital heart disease – a parent’s perspective** Domain 3: Communication, partnership and teamwork, Domain 4: Maintaining trust, 1I02, 1I05, 2C07
Mrs Kay Offord, London
- 15:45** **Discussion**
- 16:00** **Depart**

Learning objectives:

1. Refresh the anatomy & Physiology of Congenital heart disease and various shunts relevant to Paediatric Anaesthetists.
2. Understand the implications of Anaesthesia on palliated congenital heart disease children of all ages.
3. The role of Paediatric Cardiologists in advising before Anaesthesia & surgery
4. A parents perspective of a Congenital heart disease patient's hospital journey.
