Anaesthesia for the older patient

Wednesday 05 December 2018

Location: 21 Portland Place, London, W1B 1PY

Organiser: Prof Akbar Vohra, Manchester

16:20 Depart

Learning objectives:

1. Improve the preoperative optimisation of the older patients prior to surgery.
2. Improve the understanding of issues related to the management of elderly patients presenting for surgery
3. Improve the analgesia strategy for the older patient.
4. Improve the perioperative management of the older.
