

Ultrasound guided spinal & paraspinal blocks for anaesthetists

Tuesday 06 February 2018

Organiser: Dr David Pappin, Torquay

Programme

- 09:30 Registration**
- 10:00 Introduction to spinal sonoanatomy 2G02, 2G03**
Dr David Pappin, Torquay
- 10:15 Epidurals and spinals - the difficult back 2B03, 2G02, 3A08, 3A09, 3B00**
Dr David Pappin, Torquay
- 10:35 Caudals 2D05, 2G02, 3A03, 3A09, 3D00**
Dr Andrew Donovan, Taunton
- 10:55 Refreshment break**
- 11:15 Lumbosacral plexus blocks 2G02, 2G03, 3A08, 3A09**
Dr David Burckett St.Laurent, Newport
- 11:35 Thoracic paravertebral blocks 2G02, 3A09, 3A10, 3H00**
Dr Paul Trumpelmann, Southampton
- 11:55 Novel Chest Wall blocks 2E02, 2G02, 3A09, 3A10, 3H00**
Dr Duncan Hamilton, Middlesbrough
- 12:15 Quadratus lumborum blocks 2G02, 3A03, 3A08, 3A09**
Dr Teresa Parras, St George's Hospital
- 12:35 Lunch**
- 13:35 Workshops**
- 14:50 Refreshment Break**
- 15:10 Workshops continued**
- 16:25 Feedback**
- 16:35 Close**

This seminar covers Domain 1: Knowledge, skills and performance and Domain 2: Safety and quality, of the General Medical Council's 'Good Medical Practice' framework.

Equipment provided by:

FUJIFILM
Value from Innovation

FUJIFILM SonoSite is the innovator and world leader in bedside and point-of-care ultrasound. SonoSite's portable, compact, systems are expanding the use of ultrasound across the clinical spectrum by cost-effectively bringing high-performance ultrasound to the point of patient care. ukresponse@sonosite.com, 01462 341151

SonoSite

Learning objectives:

1. Understand the principles of spinal and paraspinal ultrasound scanning
2. Gain knowledge of techniques to visualise the neuraxial anatomy to help increase success and safety of spinals, epidurals and caudals in 'difficult backs'
3. Gain insight into new techniques to improve safety and efficacy of paraspinal blocks such as lumbar and sacral plexuses, as well as quadratus lumborum, paravertebral and novel chest wall blocks.
