

Association of Anaesthetists

2 in 1 fiberoptic and ultrasound workshops

Tuesday 5 March 2019

Organiser: Dr Kim Chishti, Plymouth

Programme

09:30	Registration/Tea and coffee
10:00	Introduction
10:10	The Airway Gambit 2A01, 2A07, 3A01 Dr Thomas Lawson, Plymouth
10:40	Ultrasound 'knobology' and technique 2G01, 2G04 Dr Kim Chishti, Plymouth
11:10	Refreshments
11:45	Workshop rotation 1
12:25	Workshop rotation 2
13:05	Lunch
13:50	Workshop rotation 3
14:30	Workshop rotation 4
15:10	Workshop rotation 5
15:50	Workshop rotation 6
16:30	Depart

Faculty:

- Dr Kim Chishti, Plymouth
- Dr John McGrath, London
- Dr Will Key, Torbay
- Dr Thomas Lawson, Plymouth
- Dr Borys Topor, Plymouth
- Dr Ben Fox, Kings Lynn
- Dr Billing John, Abergavenny

Association of Anaesthetists

2 in 1 fiberoptic and ultrasound workshops

Tuesday 5 March 2019

Organiser: Dr Kim Chishti, Plymouth

- Dr David Hutchins, Plymouth

Airway workshops:

- Advanced fiberoptic intubation - airway exchange catheter & fiberoptic assisted intubation via supraglottic devices **2A01, 3A01**
- Video and optical laryngoscopy **1B02, 1C02, 2A01**
- Front of neck access – cannula and scalpel cricothyroidotomy techniques **2A01, 3A01**

Ultrasound workshops:

- Brachial plexus above clavicle (interscalene, supraclavicular) **2G02, 2G03**
- Brachial plexus below clavicle (axillary, elbow & forearm) **2G02, 2G03**
- Lower limb (femoral, popliteal & adductor canal) **2G02, 2G03**
- Also the opportunity to practice needling technique using phantom models

Learning objectives:

1. Understand the principles and practice of awake fiberoptic intubation
2. Acquire knowledge of difficult airway strategies to use in various situations for the safe management of patients with anticipated or unanticipated difficult airways
3. Gain skills in the use of various types of difficult airway equipment including their strengths and weaknesses
4. Understand the principles and practice of ultrasound guidance in regional anaesthesia
5. Acquire knowledge of anatomy and sono-anatomy in relation to peripheral nerve blockade and acquire skills in practical techniques for the safe conduct of different approaches to various upper and lower limb blocks

This seminar covers Domain 1: Knowledge, skills and performance, Domain 2: Safety and quality and Domain 3: Communication, partnership and teamwork of the General Medical Council's 'Good Medical Practice' framework.
