of Anaesthetists**

Anaesthesia for orthopaedic surgery

Wednesday 5 February 2020

Location: 21 Portland Place, London

Organiser: Prof Akbar Vohra, Manchester

Learning Objectives:

1. Improve knowledge of issues related to ultrasound of concern for orthopaedic patients
2. Improve knowledge of anaesthesia and analgesia for shoulder hip and knee surgery
3. Understand and improve knowledge of management of patients undergoing spinal surgery
4. Have an update on the benefits and complications of general or regional anaesthesia for patients requiring hip fracture surgery
