

Kathleen Ferguson Award for Inclusivity - Group/departmental award

This award has been created to celebrate diversity, equity and inclusion in the workplace. The award is open to **groups of anaesthetists (including anaesthetic departments)** who have delivered an innovative initiative or solution to identify and tackle health inequalities for patients or the promotion of diversity, equity and inclusion in the workplace. Nominees must provide details of demonstratable actions, initiatives or solutions which address a **significant**, **sustained and embedded contribution to the promotion of diversity**, **equity and inclusion in the workplace**.

Reviewers will score applications using all six scoring categories, but only the top five scores will be used when the Honours and Awards Committee assess the application.

Score Descriptor Aims and contribution unclear and poorly defined (falls between 1 and 3) Some aims and objectives defined but some lack of clarity (falls between 3 and 5) Very well defined aims, contribution and objectives Measurable beneficial effect to anaesthetic colleagues or patients they serve (1-5) Score Descriptor Limited measurable benefit to anaesthetists and/or patients (falls between 1 and 3) Moderate measurable benefit to anaesthetists and/or patients (falls between 3 and 5) Significant measurable benefit to anaesthetists and/or patients Transferability to other departments, units and Trusts (1-5) Score Descriptor Local relevance only (falls between 1 and 3) Mainly local effect but some lessons to others (falls between 3 and 5) Highly relevant to others Evidence of a cultural shift and long-term changes created by the initiative (1-5) Score Descriptor Limited evidence of long-term changes (falls between 1 and 3) Some evidence of long-term changes (falls between 3 and 5) Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor Change in practice short lived (falls between 1 and 3)	Clear significance and contribution (1-5)		
2 (falls between 1 and 3) 3 Some aims and objectives defined but some lack of clarity 4 (falls between 3 and 5) 5 Very well defined aims, contribution and objectives Measurable beneficial effect to anaesthetic colleagues or patients they serve (1-5) Score Descriptor 1 Limited measurable benefit to anaesthetists and/or patients 2 (falls between 1 and 3) 3 Moderate measurable benefit to anaesthetists and/or patients 4 (falls between 3 and 5) 5 Significant measurable benefit to anaesthetists and/or patients Transferability to other departments, units and Trusts (1-5) Score Descriptor 1 Local relevance only 2 (falls between 1 and 3) 3 Mainly local effect but some lessons to others 4 (falls between 3 and 5) 5 Highly relevant to others Evidence of a cultural shift and long-term change created by the initiative (1-5) Score Descriptor 1 Limited evidence of long-term changes 2 (falls between 1 and 3) 3 Some evidence of long-term changes 4 (falls between 3 and 5) 5 Clear evidence of long-term changes 4 (falls between 3 and 5) 5 Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor 1 Change in practice short lived	Score	Descriptor	
Some aims and objectives defined but some lack of clarity (falls between 3 and 5) Very well defined aims, contribution and objectives Measurable beneficial effect to anaesthetic colleagues or patients they serve (1-5) Score Descriptor Limited measurable benefit to anaesthetists and/or patients (falls between 1 and 3) Moderate measurable benefit to anaesthetists and/or patients (falls between 3 and 5) Significant measurable benefit to anaesthetists and/or patients Transferability to other departments, units and Trusts (1-5) Score Descriptor Local relevance only (falls between 1 and 3) Mainly local effect but some lessons to others (falls between 3 and 5) Highly relevant to others Evidence of a cultural shift and long-term change created by the initiative (1-5) Score Descriptor Limited evidence of long-term changes (falls between 1 and 3) Some evidence of long-term changes (falls between 3 and 5) Clear evidence of long-term changes (falls between 3 and 5) Clear evidence of long-term changes A (falls between 3 and 5) Clear evidence of long-term changes A (falls between 3 and 5) Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor Change in practice short lived	1	Aims and contribution unclear and poorly defined	
4 (falls between 3 and 5) Very well defined aims, contribution and objectives Measurable beneficial effect to anaesthetic colleagues or patients they serve (1-5) Score Descriptor Limited measurable benefit to anaesthetists and/or patients (falls between 1 and 3) Moderate measurable benefit to anaesthetists and/or patients (falls between 3 and 5) Significant measurable benefit to anaesthetists and/or patients Transferability to other departments, units and Trusts (1-5) Score Descriptor Local relevance only (falls between 1 and 3) Mainly local effect but some lessons to others (falls between 3 and 5) Highly relevant to others Evidence of a cultural shift and long-term change created by the initiative (1-5) Score Descriptor Limited evidence of long-term changes (falls between 1 and 3) Some evidence of long-term changes (falls between 3 and 5) Clear evidence of long-term changes Clear evidence of long-term changes Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor Change in practice short lived	2	(falls between 1 and 3)	
Measurable beneficial effect to anaesthetic colleagues or patients they serve (1-5) Score Descriptor Limited measurable benefit to anaesthetists and/or patients (falls between 1 and 3) Moderate measurable benefit to anaesthetists and/or patients (falls between 3 and 5) Significant measurable benefit to anaesthetists and/or patients Transferability to other departments, units and Trusts (1-5) Score Descriptor Local relevance only (falls between 1 and 3) Mainly local effect but some lessons to others (falls between 3 and 5) Highly relevant to others Evidence of a cultural shift and long-term change created by the initiative (1-5) Score Descriptor Limited evidence of long-term changes (falls between 1 and 3) Some evidence of long-term changes (falls between 3 and 5) Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor Change in practice short lived	3	Some aims and objectives defined but some lack of clarity	
Measurable beneficial effect to anaesthetic colleagues or patients they serve (1-5) Score Descriptor Limited measurable benefit to anaesthetists and/or patients (falls between 1 and 3) Moderate measurable benefit to anaesthetists and/or patients (falls between 3 and 5) Significant measurable benefit to anaesthetists and/or patients Transferability to other departments, units and Trusts (1-5) Score Descriptor Local relevance only (falls between 1 and 3) Mainly local effect but some lessons to others (falls between 3 and 5) Highly relevant to others Evidence of a cultural shift and long-term change created by the initiative (1-5) Score Descriptor Limited evidence of long-term changes (falls between 1 and 3) Some evidence of long-term changes (falls between 3 and 5) Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor Change in practice short lived	4	(falls between 3 and 5)	
Score Descriptor Limited measurable benefit to anaesthetists and/or patients (falls between 1 and 3) Moderate measurable benefit to anaesthetists and/or patients (falls between 3 and 5) Significant measurable benefit to anaesthetists and/or patients Transferability to other departments, units and Trusts (1-5) Score Descriptor Local relevance only (falls between 1 and 3) Mainly local effect but some lessons to others (falls between 3 and 5) Highly relevant to others Evidence of a cultural shift and long-term change created by the initiative (1-5) Score Descriptor Limited evidence of long-term changes (falls between 3 and 5) Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor Change in practice short lived	5	Very well defined aims, contribution and objectives	
Limited measurable benefit to anaesthetists and/or patients (falls between 1 and 3) Moderate measurable benefit to anaesthetists and/or patients (falls between 3 and 5) Significant measurable benefit to anaesthetists and/or patients Transferability to other departments, units and Trusts (1-5) Score Descriptor Local relevance only (falls between 1 and 3) Mainly local effect but some lessons to others (falls between 3 and 5) Highly relevant to others Evidence of a cultural shift and long-term change created by the initiative (1-5) Score Descriptor Limited evidence of long-term changes (falls between 1 and 3) Some evidence of long-term changes (falls between 3 and 5) Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor Change in practice short lived	Measurable beneficial effect to anaesthetic colleagues or patients they serve (1-5)		
2 (falls between 1 and 3) 3 Moderate measurable benefit to anaesthetists and/or patients 4 (falls between 3 and 5) 5 Significant measurable benefit to anaesthetists and/or patients Transferability to other departments, units and Trusts (1-5) Score Descriptor 1 Local relevance only 2 (falls between 1 and 3) 3 Mainly local effect but some lessons to others 4 (falls between 3 and 5) 5 Highly relevant to others Evidence of a cultural shift and long-term change created by the initiative (1-5) Score Descriptor 1 Limited evidence of long-term changes 2 (falls between 1 and 3) 3 Some evidence of long-term changes 4 (falls between 3 and 5) 5 Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor 1 Change in practice short lived	Score	Descriptor	
Moderate measurable benefit to anaesthetists and/or patients (falls between 3 and 5) Significant measurable benefit to anaesthetists and/or patients Transferability to other departments, units and Trusts (1-5) Score Descriptor Local relevance only (falls between 1 and 3) Mainly local effect but some lessons to others (falls between 3 and 5) Highly relevant to others Evidence of a cultural shift and long-term change created by the initiative (1-5) Score Descriptor Limited evidence of long-term changes (falls between 1 and 3) Some evidence of long-term changes (falls between 3 and 5) Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor Change in practice short lived	1	Limited measurable benefit to anaesthetists and/or patients	
4 (falls between 3 and 5) 5 Significant measurable benefit to anaesthetists and/or patients Transferability to other departments, units and Trusts (1-5) Score Descriptor 1 Local relevance only 2 (falls between 1 and 3) 3 Mainly local effect but some lessons to others 4 (falls between 3 and 5) 5 Highly relevant to others Evidence of a cultural shift and long-term change created by the initiative (1-5) Score Descriptor 1 Limited evidence of long-term changes 2 (falls between 1 and 3) 3 Some evidence of long-term changes 4 (falls between 3 and 5) 5 Clear evidence of long-term changes 4 The sustainability of the initiative (1-5) Score Descriptor 1 Change in practice short lived	2	(falls between 1 and 3)	
Significant measurable benefit to anaesthetists and/or patients Transferability to other departments, units and Trusts (1-5) Score Descriptor Local relevance only (falls between 1 and 3) Mainly local effect but some lessons to others (falls between 3 and 5) Highly relevant to others Evidence of a cultural shift and long-term change created by the initiative (1-5) Score Descriptor Limited evidence of long-term changes (falls between 1 and 3) Some evidence of long-term changes (falls between 3 and 5) Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor Change in practice short lived	3	Moderate measurable benefit to anaesthetists and/or patients	
Transferability to other departments, units and Trusts (1-5) Score Descriptor 1 Local relevance only 2 (falls between 1 and 3) 3 Mainly local effect but some lessons to others 4 (falls between 3 and 5) 5 Highly relevant to others Evidence of a cultural shift and long-term change created by the initiative (1-5) Score Descriptor 1 Limited evidence of long-term changes 2 (falls between 1 and 3) 3 Some evidence of long-term changes 4 (falls between 3 and 5) 5 Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor 1 Change in practice short lived	4	(falls between 3 and 5)	
Score Descriptor 1 Local relevance only 2 (falls between 1 and 3) 3 Mainly local effect but some lessons to others 4 (falls between 3 and 5) 5 Highly relevant to others Evidence of a cultural shift and long-term change created by the initiative (1-5) Score Descriptor 1 Limited evidence of long-term changes 2 (falls between 1 and 3) 3 Some evidence of long-term changes 4 (falls between 3 and 5) 5 Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor 1 Change in practice short lived	5	Significant measurable benefit to anaesthetists and/or patients	
1 Local relevance only 2 (falls between 1 and 3) 3 Mainly local effect but some lessons to others 4 (falls between 3 and 5) 5 Highly relevant to others Evidence of a cultural shift and long-term change created by the initiative (1-5) Score Descriptor 1 Limited evidence of long-term changes 2 (falls between 1 and 3) 3 Some evidence of long-term changes 4 (falls between 3 and 5) 5 Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor 1 Change in practice short lived	Transferability to other departments, units and Trusts (1-5)		
2 (falls between 1 and 3) 3 Mainly local effect but some lessons to others 4 (falls between 3 and 5) 5 Highly relevant to others Evidence of a cultural shift and long-term change created by the initiative (1-5) Score Descriptor 1 Limited evidence of long-term changes 2 (falls between 1 and 3) 3 Some evidence of long-term changes 4 (falls between 3 and 5) 5 Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor 1 Change in practice short lived	Score	Descriptor	
Mainly local effect but some lessons to others (falls between 3 and 5) Highly relevant to others Evidence of a cultural shift and long-term change created by the initiative (1-5) Score Descriptor Limited evidence of long-term changes (falls between 1 and 3) Some evidence of long-term changes (falls between 3 and 5) Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor Change in practice short lived	1	Local relevance only	
4 (falls between 3 and 5) 5 Highly relevant to others Evidence of a cultural shift and long-term change created by the initiative (1-5) Score Descriptor 1 Limited evidence of long-term changes 2 (falls between 1 and 3) 3 Some evidence of long-term changes 4 (falls between 3 and 5) 5 Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor 1 Change in practice short lived	2	(falls between 1 and 3)	
Figure 5 Highly relevant to others Evidence of a cultural shift and long-term change created by the initiative (1-5) Score Descriptor 1 Limited evidence of long-term changes 2 (falls between 1 and 3) 3 Some evidence of long-term changes 4 (falls between 3 and 5) 5 Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor 1 Change in practice short lived	3	Mainly local effect but some lessons to others	
Evidence of a cultural shift and long-term change created by the initiative (1-5) Score Descriptor 1 Limited evidence of long-term changes 2 (falls between 1 and 3) 3 Some evidence of long-term changes 4 (falls between 3 and 5) 5 Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor 1 Change in practice short lived	4	(falls between 3 and 5)	
Score Descriptor 1 Limited evidence of long-term changes 2 (falls between 1 and 3) 3 Some evidence of long-term changes 4 (falls between 3 and 5) 5 Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor 1 Change in practice short lived	5	Highly relevant to others	
1 Limited evidence of long-term changes 2 (falls between 1 and 3) 3 Some evidence of long-term changes 4 (falls between 3 and 5) 5 Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor 1 Change in practice short lived	Evidence of a cultural shift and long-term change created by the initiative (1-5)		
2 (falls between 1 and 3) 3 Some evidence of long-term changes 4 (falls between 3 and 5) 5 Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor 1 Change in practice short lived	Score	Descriptor	
3 Some evidence of long-term changes 4 (falls between 3 and 5) 5 Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor 1 Change in practice short lived	1	Limited evidence of long-term changes	
4 (falls between 3 and 5) 5 Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor 1 Change in practice short lived	2	(falls between 1 and 3)	
5 Clear evidence of long-term changes and a cultural shift The sustainability of the initiative (1-5) Score Descriptor 1 Change in practice short lived	3	Some evidence of long-term changes	
The sustainability of the initiative (1-5) Score Descriptor 1 Change in practice short lived	4	(falls between 3 and 5)	
Score Descriptor 1 Change in practice short lived	5	Clear evidence of long-term changes and a cultural shift	
1 Change in practice short lived	The sustainability of the initiative (1-5)		
	Score	Descriptor	
2 (falls between 1 and 3)	1	Change in practice short lived	
	2	(falls between 1 and 3)	
3 Early change in practice but suggestion that effect weakening	3	Early change in practice but suggestion that effect weakening	
4 (falls between 3 and 5)	4	(falls between 3 and 5)	
5 Evidence of a strong change in practice	5	Evidence of a strong change in practice	

Overall strength of the application (1-5)		
Score	Descriptor	
1	Reasonable application, lacks clear evidence of demonstratable actions, initiatives or solutions	
2	(falls between 1 and 3)	
3	Good application, provides evidence of demonstratable actions, initiatives or solutions, but more detail required	
4	(falls between 3 and 5)	
5	Excellent application, clear and evidenced demonstratable actions, initiatives or solutions. An exemplar for other departments and fully demonstrates a significant, sustained and embedded contribution to the promotion of diversity, equity and inclusion in the workplace
